AIRCONDITIONING

inkl. 7.7% MWST - ex Plymouth

Airconditioning/heating reverse cycle (82,000 BTU) £44,071.00
suitable for temperatures to 40°C (tropical)
*With controls in all cabins and outlets in all areas
(including bathrooms)
Recommended generator : 17.5 kW*

Aft cabin air conditioning £5,310.00

*Condensing unit 6,000BTU supplying 6,000BTU unit (with
SMX control) and separate outlet in toilet*

HEATING / DEMIST

Eberspacher D30W Hydronic boat heating £37,135.00
*(includes outlets in forward cabins, saloon, dining area,
galley and bathrooms)
Note: warm air heating cannot be fitted if air conditioning
is specified*

Eberspacher Demist System D5W Hydronic (5kW) £7,442.00

Windscreen demist system using warm air heater powered £2,488.00
from calorifier

MOSQUITO SCREENS

Mosquito screens for all opening port lights £878.00

HOLDING TANK / TOILETS

The standard black water tank (approx. 55 gallons/250 litres) includes a remote tank contents gauge. The toilets discharge directly into the black water tank but also have the ability to discharge directly overboard via a Y valve fitted in the discharge line. The black water tank has both dockside and manual overboard discharge facilities fitted as standard.

As standard all sinks, showers, washing machine and dishwasher (when selected) will discharge directly overboard.

Electric discharge £3,910.00
In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted. The electric overboard discharge system incorporates an electric valve with timer. When the pump is turned on a time delay allows the electric valve to open before the pump starts. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. The

inkl. 7.7% MWST - ex Plymouth

through hull seacock is itself fitted with a micro switch which prevents operation of the pump when it is closed. The electric valve has a manual override facility
