The standard black water tank (approx. 60 gal / 272 l) includes a remote tank contents gauge. The toilets discharge directly into the tank. The black water tank has both dockside and manual overboard discharge facilities fitted as standard.

As standard all sinks, showers, washing machine and dishwasher will discharge directly overboard.

- Electric discharge £4,438.00
In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted.

inkl. 8.1% MWST - ex Plymouth

the electric overboard discharge system incorporates an electric valve with timer. When the pump is turned on A time delay allows the electric valve to open before the pump starts. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. the through hull seacock is itself fitted with A micro switch which prevents operation of the pump When it is closed. the electric valve has A manual override facility

- Grey water holding tank (300 litres), in addition to standard black water holding tank. £7,605.00
Includes electric overboard discharge system. Grey water holding tank to take waste water from sinks (excluding galley sink and dishwasher where applicable), showers, washing machine (plus aft cabin en-suite, where fitted). Note: NOT available with extended range fuel tank
