| <input type="checkbox"/> | Dometic Breathe Ioniser air purification system to all A/C outlets.  | £930.00    |

*Note: only applicable if airconditioning is selected (does not include cockpit airconditioning option)*

## HEATING / DEMIST

Preise ab Werk England -  
 Exportpreisliste exkl. der  
 jeweiligen MWST (abhängig  
 vom Zielland, CH wäre +8.1%)

- |                          |  |            |
|--------------------------|--|------------|
| <input type="checkbox"/> | Eberspacher M12 Hydronic boat heating<br><i>with outlets in all cabins and bathrooms</i>   | £28,725.00 |
| <input type="checkbox"/> | Windscreen demist system using warm air heater powered<br>from Eberspacher M12 heating   | £2,675.00  |
| <input type="checkbox"/> | Windscreen demist system using warm air heater powered<br>from calorifier  | £2,535.00  |
| <input type="checkbox"/> | Heater outlet in cockpit   | £665.00    |
| <input type="checkbox"/> | Cockpit partition cover white with zip door and acrylic<br>window (fits between aft end of hardtop and forward end of<br>sunbed) | £2,905.00  |

#### MOSQUITO SCREENS

- |                          |  |         |
|--------------------------|--|---------|
| <input type="checkbox"/> | Mosquito screens for all opening portholes | £865.00 |
|--------------------------|--|---------|

#### HOLDING TANK / TOILETS

The standard black water tank includes a remote tank contents gauge. The toilets discharge directly into the black water tank. The black water tank has both dockside and manual overboard discharge facilities fitted as standard

As standard all sinks, showers, washing machine (when selected) and dishwasher (when selected) will discharge overboard

- |                          |   |           |
|--------------------------|---|-----------|
| <input type="checkbox"/> | Electric discharge<br><i>In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted. The electric overboard discharge system incorporates an electric valve with timer. When the pump is turned on a time delay allows the electric valve to open before the pump starts. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. The through hull seacock is itself fitted with a micro switch which prevents operation of the pump when it is closed. The electric valve has a manual override facility</i> | £4,130.00 |
|--------------------------|---|-----------|

#### EXTERIOR UPHOLSTERY / CANVAS / COVERS
