HOLDING TANK / TOILETS

The standard black water tank (approx. 66 gallons/ 300 litres) includes a remote tank contents gauge. The toilets discharge directly into the tank but also have the ability to discharge directly overboard via a Y valve fitted in the discharge line. The black water tank has both dockside and manual overboard discharge facilities fitted as standard

As standard all sinks, showers, washing machine(s) and dishwasher (when selected) will discharge overboard

- ☐ Electric discharge £4,465.00
In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted. The electric overboard discharge system incorporates an electric valve with timer. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. The through hull seacock is itself fitted with a micro switch which prevents operation of the pump when it is closed. The electric valve has a manual override facility
