Preisliste April-2 2025

inkl. 8.1% MWST - ex Plymouth

ENGINES & DRIVE

MAN 2 x V8-1200, 2 x 1200 mhp (Diesel)	£2,884,108.00
MAN 2 x V12-1400, 2 x 1400 mhp (Diesel)	£2,954,373.00

- | | | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------|------------|
| <input type="checkbox"/> | Joystick Control (Aventics)
<i>Operates both engines, bow thruster (170kgF) and optional stern thruster.</i> | £36,792.00 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------|------------|

Note: Variable speed bow and stern thrusters are recommended with this option.

- | | | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <input type="checkbox"/> | Low speed trolling system
<i>This system allows controlled limited clutch slippage so the yacht can operate at speeds slower than would be possible with the clutch engaged and the engines on minimum rpm for forward movement.</i> | £12,269.00 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|

NB: Using the trolling function will increase clutch plate wear.

- | | | |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <input type="checkbox"/> | Sternthruster (170 KgF) | £15,653.00 |
| <input type="checkbox"/> | Variable speed bow (eVision) (210kgF) and stern (170kgF) thrusters with hold function docking facility and dual station controls (includes upgraded AGM 140 Ah batteries) | £25,966.00 |
| <input type="checkbox"/> | Extended range fuel tank (additional 300 litres to give 4,400 litres total)
<i>Note: NOT available with optional grey water tank</i> | £11,977.00 |
| <input type="checkbox"/> | Second station controls in cockpit starboard buttress (engine controls, emergency stops & thruster controls) | £10,324.00 |

STABILISATION

- | | | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <input type="checkbox"/> | Sleipner Vector Fin stabilisation system
<i>with SP55 and VFS800 fins. When underway fins are driven by an engine powered hydraulic motor and at zero speed by a generator powered electric motor.</i> | £137,017.00 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|

Recommended generator: 19 kW

- | | | |
|--------------------------|-------------------------------------|-----------|
| <input type="checkbox"/> | Mosquito screens for all portlights | £1,135.00 |
|--------------------------|-------------------------------------|-----------|

HOLDING TANK / TOILETS

The standard black water holding tank (approx. 60 gal / 272 l) includes a remote tank contents gauge. The toilets discharge directly into the tank. The black water holding tank has both dockside and manual overboard discharge facilities fitted as standard.
As standard all sinks, showers, washing machine and dishwasher will discharge directly overboard.

- | | | |
|--------------------------|--------------------|-----------|
| <input type="checkbox"/> | Electric discharge | £4,465.00 |
|--------------------------|--------------------|-----------|

inkl. 8.1% MWST - ex Plymouth

In addition to the manual overboard and dockside discharge facilities an electric overboard discharge system is fitted. The electric overboard discharge system incorporates an electric valve with timer. When the pump is turned on a time delay allows the electric valve to open before the pump starts. When the pump is switched off the valve closes. This means the through hull seacock does not need to be opened/closed every time the pump is switched on. The through hull seacock is itself fitted with a micro switch which prevents operation of the pump when it is closed. The electric valve has a manual override facility

- | | | |
